

The only oral spinal muscular atrophy (SMA) treatment

Now in a tablet\*

**Liquid or tablet:  
Evrysdi comes with choices!**

The proven results and safety of the liquid form now come with the **flexibility of a tablet.**

### Who is eligible to take Evrysdi tablets?

\*Evrysdi tablets are approved for people aged 2 years and older who weigh at least 44 lb (20 kg). The tablets cannot be taken with feeding tubes.

See more frequently asked questions on the back.

### Stored at room temperature†

Whether at work or on vacation, you can travel with Evrysdi tablets without the need for a cooler bag

†68°F to 77°F (20°C to 25°C).

### Made to fit your lifestyle

You can choose to swallow the tablet whole with water or as a mixture with non-chlorinated drinking water (eg, filtered water, bottled water)—whichever works best for you

### No need for measuring

Each once-daily Evrysdi tablet already contains your dose

Please review the **Dosage and Administration** section of the **Prescribing Information** and watch this [video on how to take Evrysdi tablets](#).

**Evrysdi is the only oral, non-invasive option for SMA:**

- ✓ No needles
- ✓ No sedation
- ✓ No hospital stays

**Ask your doctor if Evrysdi tablets are right for you**

### What is Evrysdi?

Evrysdi is a prescription medicine used to treat spinal muscular atrophy (SMA) in children and adults.

### Important Safety Information

- **Before taking Evrysdi, tell your healthcare provider about all of your medical conditions, including if you:**
  - are pregnant or plan to become pregnant, as Evrysdi may harm your unborn baby. Ask your healthcare provider for advice before taking this medicine
  - are a woman who can become pregnant:
    - Before you start your treatment with Evrysdi, your healthcare provider may test you for pregnancy
    - Talk to your healthcare provider about birth control methods that may be right for you. Use birth control while on treatment and for at least 1 month after stopping Evrysdi
    - **Pregnancy Registry.** There is a pregnancy registry for women who take Evrysdi during pregnancy. The purpose of this registry is to collect information about the health of the pregnant woman and her baby. If you are pregnant or become pregnant while receiving Evrysdi, tell your healthcare provider right away. Talk to your healthcare provider about registering with the Evrysdi Pregnancy Registry. Your healthcare provider can enroll you in this registry or you can enroll by calling **1-833-760-1098** or visiting <https://www.evrysdipregnancyregistry.com>.
  - are an adult male. Evrysdi may affect a man's ability to have children (fertility). Ask a healthcare provider for advice before taking this medicine
  - are breastfeeding or plan to breastfeed. It is not known if Evrysdi passes into breast milk and may harm your baby
- **Tell your healthcare provider about all the medicines you take**
- If you were prescribed Evrysdi for Oral Solution, you should receive Evrysdi from the pharmacy as a liquid. If the medicine in the bottle is a powder, **do not use it.** Contact your pharmacist for a replacement

Please see full [Prescribing Information](#) for additional Important Safety Information.

# Frequently asked questions about Evrysdi tablets

## Can the tablets only be swallowed whole?

Evrysdi tablets can either be swallowed whole with water or as a mixture with 1 teaspoon (5 mL) of room temperature bottled water. They cannot be chewed, crushed, cut, or dissolved on the tongue.

## Why do I need to use room temperature bottled water when preparing the Evrysdi tablet mixture?

To help make sure every dose is consistent, always mix it with bottled water. Chlorine in tap water can interact with the medicine in Evrysdi.

## Can I get a prescription for both the liquid and tablet forms of Evrysdi so I can mix and match based on my needs?

Your ability to switch between formulations will depend on discussions with both your healthcare and insurance providers. Be sure to ask your healthcare provider which option is best for you.

## How large is the tablet?

Evrysdi tablets are 6.6 mm (0.25 inches) in diameter and 4.1 mm (0.15 inches) in height—about the size of a kernel of corn.

## I still have some of my current medicine left. Do I need to finish it before I can start taking the Evrysdi tablets?

Your insurance company may require you to use all of your current medicine before you begin taking Evrysdi tablets. Be sure to check with your insurance company to be certain.

## Should Evrysdi tablets be taken with food?

Evrysdi tablets can be taken with or without food. It will not affect how the tablet works either way. Just remember to take it at approximately the same time each day.

## Can I take or give the tablet mixture with a G-tube or NG-tube?

No, unfortunately it cannot be administered via a gastrostomy tube (G-tube) or nasogastric tube (NG-tube). If you or the person you are caring for has a G-tube or NG-tube, you can ask your healthcare provider about taking the Evrysdi liquid.

## If I switch to Evrysdi tablets from a different SMA treatment, will I have a gap in coverage?

If you have concerns about costs or insurance coverage, our PALs (Partnership and Access Liaisons) are here to help. You can visit [Evrysdi.com/PAL](https://www.evrysdi.com/PAL) to learn more and connect with a PAL. Reach out anytime.

## Can I get Evrysdi tablets from a retail pharmacy?

Evrysdi tablets are only available through a specialty pharmacy. Once prescribed, they will be shipped directly to your door.

**Ask your doctor  
about Evrysdi tablets**

## Important Safety Information (continued)

- Avoid getting Evrysdi on your skin or in your eyes. If Evrysdi gets on your skin, wash the area with soap and water. If Evrysdi gets in your eyes, rinse your eyes with water
- **The most common side effects of Evrysdi include:**
  - For later-onset SMA: fever, diarrhea, rash
  - For infantile-onset SMA: fever, diarrhea, rash, runny nose, sneezing and sore throat (upper respiratory infection), lung infection (lower respiratory infection), constipation, vomiting, cough

These are not all of the possible side effects of Evrysdi. For more information on the risk and benefits profile of Evrysdi, ask your healthcare provider or pharmacist.

You may report side effects to the FDA at [1-800-FDA-1088](https://www.fda.gov/medwatch) or [www.fda.gov/medwatch](https://www.fda.gov/medwatch). You may also report side effects to Genentech at [1-888-835-2555](https://www.genentech.com).
